# ROCK POND

Sandy River Plt., Franklin County  
U.S.G.S. Saddleback Mountain, Maine (7½')

## Fishes

Brook trout

## Physical Characteristics

Area - 7 acres

Maximum depth - 15 feet

Temperatures:

Surface - 68°F

10 feet - 53°F

Principal fisheries: Brook trout

Rock Pond is located west of Saddleback Mountain. The pond has no major inlets, but a small intermittent outlet flows south toward Saddleback Lake. The pond's shoreline is undeveloped.

Water quality in Rock Pond is good for coldwater gamefish. However, the pond lacks suitable spawning and nursery area to maintain a wild population. A brook trout fishery is provided through annual stockings. Growth is good with no other fish species present to compete for food and space.

Rock Pond is accessible via a trail leading south from the Saddleback Ski Area. The pond is open to fishing with the use or possession of live fish as bait being prohibited in the summer and closed to ice fishing.

Surveyed - August, 1962

Resurveyed - July, 1988
